

Dr. Abdulaziz Aljodai
Research Fellow, SABIC
Tel: +966 (0)500158365
Email : aljordai@sabic.com

Dr. Abdulaziz Al-Jodai is a Research Fellow, the second highest technical level, at SABIC Company. He holds M.S. & Ph.D. degrees in Chemical Engineering, and an M.S. in Industrial Management. Since joining SABIC, he has developed a variety of unique chemical technologies, including CO₂ capturing and utilization, which has been implemented commercially.

Currently, he is leading the corporate projects related to energy efficiency, applications of renewable energy to chemical plants, and CO₂ utilization. He is a named inventor of several patents at SABIC, mainly in plant-wide chemical process development and environmental fields.

In 2017, he received the prestigious Saudi Distinguished Engineering Award along with the inclusion in its Golden Record of Innovation.
