GAS RECOVERY/FLARE MANAGEMENT & CLEAN FUEL

Master Gas System
The Kingdom’s Master Gas System (MGS)

The Journey from Illuminating Deserts to Fueling the Economy
MGS: Historical & Future Perspective

- **1975** – Initiation with capacity of 3.5 BSCFD
- **2000** – Gas capacity increased to 6.1 BSCFD
- **2001** – HGP boost capacity to 7.7 BSCFD
- **2003** – HdGP post capacity to 9.3 BSCFD
- **2008** – KGP increased capacity to 10.4 BSCFD
- **2012** – Karan Gas increased it to 12.2 BSCFD
- **2014** – Wasit Project will boost it to 14.7 BSCFD
Before the MGS

3.5 BSCFD Associated Gas

Oil

GOSP

Flare

After the MGS

3.5 BSCFD Associated Gas

Oil

GOSP

Clean Fuel

Gas Plant
