

Zaour Israfilof

Climate Change & CDM Specialist, SABIC

Tel: +966 (0)547300498

Email : israfilofzy@sabic.com

Having completed the MBA in Strategic Carbon Management which is the first study of climate change from business perspective Zaour gained extensive carbon management experience across different sectors including industrial manufacturing, chemicals, defense, healthcare, local government.

He specializes in developing carbon corporate strategies, sustainability indices, assessment of climate change risks and opportunities (TCFD), carbon neutrality and finance, market based schemes. In his current role as a Climate Specialist with the largest listed company in the Middle East Zaour leads the pipeline of carbon reduction projects under the UN's Clean Development Mechanism (CDM).

He has also initiated the company's global carbon management corporate strategy. Prior to that he worked as a Climate Change Manager for the local government of Oxford, UK and was involved in carbon management for Sochi Winter Olympic Games.

Zaour was the first consultant to achieve carbon neutrality in accordance with the British Carbon Neutrality Standard BSI PAS2060.
