

**Ammar Alshehri**

Petroleum Engineer

Strategic technology analysis division

Expec advanced research center department, SAUDI ARAMCO

Tel: +96613 873-4177 Fax: +966 13 873-0464

Email: ammar.alshehri@aramco.com

Ammar Alshehri is a reservoir engineer currently working with Saudi Aramco's Upstream Research Center known as EXPEC Advanced Research Center (EXPEC ARC). Ammar received his B.Sc. degree in Petroleum Engineering (2005) from Colorado School of Mines, M.Sc. degree (2009) and Ph. D. degree (2013) in Petroleum Engineering from Stanford University.

Ammar has several years of experience in areas related to enhanced oil recovery (EOR), Petrophysics, production engineering, reservoir management and numerical reservoir simulation.

Ammar is currently a member of Saudi Aramco's Upstream Carbon Management Team overseeing Saudi Aramco's CO<sub>2</sub> EOR Demonstration Project; the 1st project of its kind in the Kingdom. Ammar has several technical papers and articles published in several venues.

He is also a technical reviewer for the SPE Journal and the Journal of Petroleum Science and Engineering.
